Professional Summary

Result-oriented Computer Science undergraduate with strong foundation in Data Structures, Object-Oriented Programming, and Full Stack Web Development (MERN). Hands-on experience in AI and Robotics through internship, along with building scalable web and machine learning applications. Passionate about solving real-world problems using technology.

Technical Skills

Languages: Java, Python, JavaScript, C

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code

Core Concepts: Data Structures & Algorithms, OOP, REST APIs, DBMS

Professional Experience

AI & Robotics Intern | Hive Tech

3 Months

India

- Worked on AI-based and robotics projects involving real-time data processing and automation.
- Assisted in developing intelligent systems using Python and machine learning concepts.
- Gained hands-on experience with sensors, hardware integration, and basic robotics workflows.
- Collaborated with team members to design and test solutions for real-world problem statements.
- Improved understanding of AI model implementation and system optimization.

Projects

Malware Detection using Machine Learning (Final Year Project)

Python, Scikit-learn, Pandas

- Developed a machine learning model to classify files as malicious or benign using supervised learning.
- Performed data preprocessing, feature engineering, and normalization.
- Implemented algorithms like Random Forest and Logistic Regression for improved accuracy.

E-Commerce Web Application

HTML, CSS, JavaScript

- Built a responsive e-commerce platform with product listing, filtering, and cart system.
- Designed admin panel for product and inventory management.
- Improved UI/UX for better user experience.

Multi-Page React Application

React.js, React Router

- Developed scalable multi-page application using reusable components.

- Implemented client-side routing for seamless navigation.

Weather Application

JavaScript, OpenWeather API

- Built real-time weather app using API integration.
- Used async/await for efficient data handling.

To-Do List Application

- Developed task manager with CRUD operations and local storage.

Portfolio Website

- Designed responsive personal portfolio showcasing projects and skills.

Education

Bachelor of Engineering in Computer Science

Expected 2026

Padmabhooshan Vasantraodada Patil Institute of Technology, Sangli

CGPA: 7.2

HSC - Science

Year 2022

Shikshanmaharshi Dr. Bapuji Salunkhe College, Miraj

Percentage: 69

SSC

Year 2020

AL-FATAH ENGLISH SCHOOL, Miraj

Percentage: 78

Certifications

- Machine Learning using Python – Simplilearn
- Python Programming
- Java Programming
- Introduction to AI

Achievements

- Solved 200+ DSA problems on LeetCode and GeeksforGeeks.

Additional Information

Languages: English, Hindi, Marathi
